## Technical Skills

---

### Ceramic:

- Wheel throwing & handbuilding (coil/slab/pinch, vessel/abstract/figurative, combined techniques)
- Mold-making (press molding and slipcasting, complex molds)
- Earthenware, mid-range, stoneware, and porcelain clay bodies/glazes
- Firing kilns including gas, electric, wood, salt, and soda
- Splitting wood, reduce-cooling wood and gas kilns
- Clay and glaze chemistry
- Operation and maintenance of ceramic equipment including slab-rollers, extruders, clay mixers, pug mills, sandblasters, grinders, spray booths, shop-vacs, etc.
- Electric kiln repair

### Computer/Digital:

- Digital photography (including documentation and fine art photography)
- Adobe Photoshop, Lightroom, Illustrator, Premiere Pro, After Effects, and more
- Stop-motion animation
- 3D CAD modeling in Autodesk Fusion 360
- Digitally designed and fabricated mold-making systems
- 3D CAM design using Cura, VCarve Pro, and Autodesk Fusion 360
- Operation of plastic and resin 3D printers
- Operation of CNC routers
- Web development in Wordpress.org and classroom blogging platforms
- Troubleshooting hardware and software issues

### Metal:

- Operation of stationary and handheld metal fabrication tools
- MIG and TIG welding
- Standard investment, ceramic shell, and resin sand mold-making
- Pouring bronze and aluminum

### Wood:

- Use of common woodshop tools (table, panel, band, and miter saws, power sanders, routers, planers, jointers, drill presses)
- Basic construction and framing techniques
- Wood sculpture using hand and rotary tools and wood-burning techniques
- Designing and creating mounting/hanging solutions

### Miscellaneous Skills:

- Gallery lighting and photography studio lighting
- Hand and machine-sewing, crocheting (with multiple materials), knitting, and upholstery
- Glass lampworking and small-scale glass blowing
- "Sewing"/joining plastic with heat
- Applications of resin, epoxy, and silicone rubber materials
